

## Questionnaires

### 1. Intro:

#### Study Sense Questionnaire Pack

- Thank you for agreeing to answer the question.
- The questions will be under some categories, like introductory, app features, and the app exploration.

### a. Questions:

#### 1. Name: (optional)

#### 2. School name: (optional)

#### 3. Level of study:

#### 4. If university, what year?

#### 5. Are you working? (yes, no) (full-time, part-time, casual)

#### 6. Have you experienced study help application?

#### 7. What features would you prefer to be in your study help app?

#### 8. Do you know what Study Sense app is?

#### 9. Having a study app that helps you keep all records, track up your classes, assignments, and exams? And reminds you of due dates? Does that make you feel more confident throughout your academia?

#### 10. Do you like to start the app with registering your class information without signing in/up or a signing in/up step(s) beforehand?

11. During your class registering process, do you prefer a popup message, or image in image style?
12. Your class registering process, do you like it to be a question per step, multiple questions per step, or a mix of both ways?
13. Do you prefer sign-in and sign-up steps to be on the same page or on two separate pages?
14. Do you think signing-in or signing-up using your account on Google, Microsoft, or Apple is more likely accepted, or rather you would prefer using your own email and password?
15. On adding or exploring your classes and assignments do you likely prefer grid or agile style?
